3rd Edition, 2022

What an exciting few months we've had! If you have not already heard, on the 1st of May we acquired the clinical research department of Woden Dermatology. Our new site, Paratus Clinical Research Woden, is a specialist site with a dedicated team delivering clinical research in Dermatology, Rheumatology and Haematology. More information about our Principal Investigators below:

Dr Diana Rubel is a consultant dermatologist in private practice at Woden Dermatology and a visiting medical officer at The Canberra Hospital. She has over 10 years experience as a Principal Investigator for clinical research trials in dermatology.

A/Prof Dipti Talaulikar is an experienced clinical haematologist at Icon Cancer Centre Canberra, senior staff specialist at Canberra Hospital and Associate Professor at the Australian National University. Her clinical experience covers a broad range of malignant haematology conditions.

Dr Anna Raj is a consultant rheumatologist working in private practice as well as a Senior Staff Specialist at Canberra Hospital and Senior Clinical Lecturer at Australian National University. She has been involved in clinical trials since 2010 as a Principal Investigator in rheumatology. She works in private practice at Rheumatology ACT (located in the same building as Woden Dermatology).

Paratus Clinical Research Woden capabilities:

Dermatology:

- Therapeutic experience in Atopic Dermatitis, Acne, Psoriasis, Dermatitis, Eczema, Alopecia Areata, Hidradenitis Suppurativa, Palmoplantar Pustulosis
- Experience in Phase I - III studies

Rheumatology

- Therapeutic experience in Rheumatoid Arthritis, Psoriatic Arthritis, Ankylosing Spondylitis, Lupus and Gout

Heamatology

- Therapeutic experience in Leukaemia, Myeloma, Lymphoma, Myeloproliferative Neoplasms and Myelodysplastic Syndrome.

Paratus Clinical Research Woden has a dedicated clinical research space with study coordinators, research nurses and clinical trial administration staff.

There are designated specialists rooms for research patients and adequate space for monitoring.

The site also maintains temperature controlled fridge and freezers for clinical trial use.

1st May 2022 - Celebrating the acquisition

With the addition of our Woden site, Paratus Clinical now has 5 sites including:

- Western Sydney (Blacktown, NSW)
- Central Coast (NSW)
- Brisbane (QLD)
- Canberra (ACT)
- Woden (ACT)

Paratus Clinical is apart of the PCRN Network with access to 17 sites across Australia & New Zealand

Conference update

ARCS Conference in Sydney

It was great to see such a large turn out at the Annual ARCS conference this year! The atmosphere was buzzing as people met in person for the first time in 2 years. This was the first time we had an exhibit booth and found the whole experience very positive and engaging. Our lead PI from Paratus Clinical Canberra, Dr Amber Leah, presented her investigator perspective on patient centricity and how to move forward in this as an industry.

BIO International Convention in San Diego

Our Clinical Site Operations and Integration Manager, Ashlee Innes, represented Paratus Clinical at the BIO International Convention in June. Despite a few travel hiccups getting over there, Ashlee felt the conference was a great success with the Australian pavilion showcasing our geographical opportunities and the Research & Development tax incentive. The Australian wines were also a hit!

Society of Clinical Research Sites AUS/NZ Conference – Site Solutions Summit in Melbourne

Another successful Australian conference! Matt Clacy, Chief Commercial Officer, and Carolyn Casey, Chief Operating Officer, had the pleasure of participating as session presenters for 3 breakout sessions. Discussing relevant topics in the current clinical trial environment and providing insight from a sites perspective is important to Paratus Clinical. Our aim was to raise awareness on topics such as site sustainability, the future of remote monitoring and retaining site staff during the pandemic.
